

## Symposium in Cancer Biotherapeutics

## Cancer Research UK City of London Centre Symposium

Tuesday 19th February 2019

- 15:30-16:00**                    **Registration**
- 16:00-16:10**                    **Welcome and overview of CRUK CoL Centre strategy**  
**Professor Tariq Enver, Director of CRUK CoL Centre**
- 16:10-16:40**                    **Theme 1 - Developing biological therapies**  
**Host: Professor Frances Balkwill**
- 16:10-16:20                    Tumour-targeted replicating Vaccinia virus as  
a promising Bio-therapeutic agent  
**Professor Yaohe Wang**
- 16:20-16:30                    The UCL CAR T programme  
**Dr Claire Roddie**
- 16:40-17:10**                    **Theme 2 - Cross-disciplinary approaches enhancing biotherapeutics**  
**Host: Professor Tony Ng**
- 16:40-16:50                    Imaging biomechanics: application to cancer  
& neuro  
**Professor Ralph Sinkus**
- 16:50-17:00                    Imaging tumour redox status with positron  
emission tomography  
**Dr Tim Witney**
- 17:10-17:40**                    **Theme 3 - Cancer evolution and tumour heterogeneity**  
**Host: Professor Francesca Ciccarelli**
- 17:10-17:20                    Mathematical modelling to measure  
evolutionary dynamics of human tumours  
**Dr Marc Williams**
- 17:20-17:30                    Immune escape in lung cancer evolution  
**Dr Rachel Rosenthal**
- 17:40-17:50**                    **Paediatrics Cross-cutting Theme**  
**Dr Karin Straathof**
- 17:50-18:00**                    **Training Cross-cutting Theme**  
**Dr Sally Leever**
- 18:00**                            **Closing remarks followed by a drinks reception**
